## Kagoshima Black Pork Thick Cut Pork Loin Cutlet

Our popular menu item is the bottom loin of Kagoshima kurobuta pork, the highest-rated pork in Japan, dipped in coarse breadcrumbs and deep-fried. Enjoy it with our homemade sauce.

## Deep-fried Burdock Root

A classic menu item that continues to be a favorite at Karen. Fresh burdock root from Kagoshima Prefecture is deep-fried in a special batter made from rice flour, resulting in a crunchy outside and a chewy inside texture.

## Kagoshima Shochu

We have a wide variety of Kagoshima sweet potato shochu, barley and brown sugar shochu available. We also have in stock hard-to-find premium shochu that you won't find anywhere else, so take this opportunity to enjoy it.

## Selected Rice

We use Akihonami rice grown locally in the rich natural land of Kagoshima. The grains are large and have an excellent taste and aroma. It has received the highest rating of "Special A" rice quality ranking for eight consecutive years.
